GROUP 0083**

IDIQ SMALL BUSINESS SET-ASIDE MACC FOR PAVING AT VARIOUS LOCATIONS WITHIN THE NAVFAC SOUTHWEST AREA OF RESPONSIBILITY INCLUDING BUT NOT LIMITED TO ARIZONA, CALIFORNIA, COLORADO, NEVADA, NEW MEXICO, AND UTAH

**SCOPE OF WORK:** The work to be performed under this contract provides for new construction, renovation, and repair within the NAICS code listed, primarily by design-build or secondarily by design-bid-build, of wet utilities construction projects, and related structures, at various locations predominantly within the NAVFAC Southwest area of responsibility (AOR) including, but not limited to, California, Arizona, Colorado, Nevada, New Mexico, and Utah, but will be available to the NAVFAC Atlantic AOR as approved by the Contracting Officer. It is anticipated that the majority of the work will be performed in San Diego County, California. Types of projects may include, but are not limited to: water, steam, sewer, and storm sewer lines; wells, mains, pumping stations, treatment plants, storage tanks and facilities and related work. All structures (including buildings) that are integral parts of water, steam, and sewer networks (e.g., storage tanks, pumping stations, water treatment plants, and sewage treatment plants) are included. This contract does not include waterfront related construction or oil and gas pipeline construction

**DRY UTILITIES IV MACC  
GROUP 0084**

**INDEFINITE DELIVERY INDEFINITE QUANTITY (IDIQ) UNRESTRICTED MULTIPLE AWARD CONSTRUCTION CONTRACT (MACC) FOR NEW CONSTRUCTION, RENOVATION, AND REPAIR OF NATURAL GAS AND PETROLEUM, OILS, AND LUBRICANTS (POL) FUEL SYSTEMS PROJECTS AT VARIOUS GOVERNMENT INSTALLATIONS LOCATED IN CALIFORNIA, ARIZONA, NEVADA, UTAH, COLORADO, AND NEW MEXICO**

**SCOPE OF WORK:** The work to be performed under this contract provides for new construction, renovation, and repair within the NAICS code listed, by design-build or design-bid-build, of dry utilities construction at various government installations located in California, Arizona, Nevada, Utah, Colorado, and New Mexico. The majority of the work will be for new construction, additions, repairs, or upgrades to electrical distributions, lighting systems, cable television lines, airfield lighting, and communication transmission lines. Related projects may include: digging trenches; laying cable, pipe and conduit; constructing manholes; concrete pads and footings; and building structures that are integral parts of the utility systems (e.g., towers, substations, enclosures).

COASTAL CAMPUS UTILITIES INFRASTRUCTURE, SILVERSTRAND TRAINING COMPLEX-SOUTH, NAVAL BASE CORONADO, CORONADO, CALIFORNIA	
LOCATION Work will be performed at Naval Base Coronado, Coronado, California	
SCOPE OF WORK: The work to be performed provides for the construction of primary facilities for electrical, gas, water, sanitary sewer, storm water, fire protection, communication, and data systems. Major scope elements include: sewer lift stations, primary and secondary distribution, data systems, fiber optics, lighting, switchgear, fire storage tanks and all associated pumps. Option items include secondary fiber path, concrete sidewalks, a central sidewalk, and mixed path sidewalks and infrastructure for recycled water distribution system. The option, if exercised, provides for a helicopter landing zone.	
Contract Amount: 48,152,000 NAICS: 237990	Award Date: March 30, 2017 Contract Expires: April 23, 2018
CAGE Code: 68RN8	RQ-DPR JV 3194 Lionshead Ave Carlsbad, CA 92010-4701 POC: Doug Youngdale (760) 477-8616 Phone: (760) 477-8616

<p>N62473-14-D-0049 FACILITY PLANNING SERVICES, SMALL BUSINESS SET- ASIDE NAVFAC SW</p>	
<p>LOCATION: The work for this contract shall occur at various Navy and Marine Corps facilities and other military installations located in the NAVFAC Southwest Area of Responsibility (AOR): California, Arizona, Nevada, Colorado, New Mexico and Utah. Projects could also be located anywhere in the United States, including Alaska and Hawaii. The preponderance of work is in Southern California.</p>	
<p>SCOPE OF WORK: Required A-E services are for, but not limited to: <u>SUSTAINABILITY MASTER PLANNING</u>: Local and regional planning to include sustainability principles, sustainable urbanism, healthy community planning, energy and renewable master planning, form-based planning, landscape architecture, leading group facilitation/charettes and electronic/web-based master planning and scenario planning; <u>PROJECT PLANNING DOCUMENTS</u>: Military Construction (MILCON) Project Planning Documentation (DD Form 1391); Demolition / Footprint Reduction and Special Projects planning documentation (DD Form 1391 and Electronic Project Generator (EPG); Preliminary and Parametric Cost Estimates; Site Approvals (Ordinance etc.); Economic Analyses (EAs) using the latest version of the Government's ECONPACK software; Asset Evaluations (AE) and or Basic Facilities Requirements (BFR) documentation; Facilities Planning Documents (FPD), using the government's web-based iNFADS program; <u>GEO-SPATIAL INFORMATION &amp; SERVICE</u>: The preparation of Geo-Spatial Data services includes, preparation of maps, datasets, data models, geo-processing models and associated metadata needed to assess, evaluate, manipulate, convert, correct, project, load, link, scan and provide quality control for maps, charts, hard copy, legacy database information utilizing Microsoft Office, Adobe Acrobat, Oracle, AutoCAD, ESRI ARCVIEW, ESRI ARCInfo, and ESRI ArcGIS Server. <u>Global Position System (GPS)</u> services include field location of map features and incorporation of location data into datasets associated with map layers; the collection of data using GPS equipment compatible with the NAVFAC SW Geo-Readiness Center (GRC). <u>OTHER SERVICES</u> include: Renewable energy research and or studies; Architectural studies; Civil engineering studies; Land Surveying and topographic mapping; and Hazardous materials test and abatement studies.</p>

FUEL STORAGE AND DISTRIBUTION FACILITIES REPLACEMENT	
LOCATION: The work will occur predominantly at Naval Base in Ventura County, California.	
The work to be performed provides for the construction and replacement of a jet-fuel storage complex consisting of fuel piping to 20 existing hot fuel outlets, fuel transfer piping, three fuel storage tanks, pump- house, and fuel operations support facility. It modifies existing fuel truck loading position and adds two additional positions, and modifies existing truck unloading stations. It replaces existing military service station and provides a 25 gallon surge tank. Work also includes the demolition or decommissioning of existing fuel underground storage tanks and associated support facilities. Project includes remediation of fuel contaminated soil funded by other appropriations. The planned modification, if exercised, provides furniture, fixtures and equipment.

MECHANICAL, ELECTRICAL AND FIRE PROTECTION ENGINEERING SERVICES	
LOCATION: Projects at various military installations located in the NAVFAC Southwest Area of Responsibility (AOR): California, Arizona, Nevada, Colorado, New Mexico, Utah, and Worldwide. The preponderance of work is expected to be in Southern California.	
SCOPE OF WORK: The type of Mechanical, Electrical, and Fire Protection services expected to be performed under this contract are as follows: Primary A-E services required: Preparation of Requests for Proposals (RFP) for Design Build (DB) projects; Design-Bid-Build (DBB) construction contract packages (i.e., full plans and specifications); Mechanical/Electrical Site Investigations, Studies, Surveys, and Reports. Secondary A-E services required: Cost estimates; construction contract support services (CCSS) or post construction award services (PCAS); Fire Protection Engineering Designs, Studies, Surveys and Site Investigation (e.g. fire risk/hazard analysis, life safety code analysis, fire modeling and engineering documentation, antiterrorism, and final inspections and tests of installed Fire Protection Systems. Fire Protection surveys shall be conducted within the guidelines established by OPNAVINST 11320.23G). Support A-E services which may be required: Technical reviews of government-prepared RFP for DB projects and/or full plans and specifications for DBB projects; preparation of planning and programming support documents; incidental architectural, civil, structural, geotechnical, and environmental work; identification and abatement methods for existing asbestos-containing materials, lead-based paint, and other hazardous materials. Types of projects will include, but are not limited to, sustainable energy documentation (e.g. Energy Master Planning, Commissioning, Life Cycle Cost, LEED/Third Party Certifications, Title 24 Energy Compliance documents, ASHRAE 90.1 compliance documents, and ASHRAE 90.1 Performance Rating Method reports); Military Construction (MILCON), new construction, major repair/renovation of: onsite power generating systems (e.g. solar, cogeneration); control systems (e.g. microgrid, utility control systems); heating, ventilation, air conditioning and control systems (e.g. exhaust systems, direct digital control schematic and architecture); energy supply systems (i.e. above and below ground steam distribution, high temperature/pressure water, refrigeration systems, and natural gas including earthquake shut off valves); plumbing systems; interior and exterior electrical power systems (e.g. interior building power, medium and low voltage distribution systems, primary and secondary substations, Uninterruptable Power Supply (UPS), emergency generators); communication and security systems (e.g. cable TV, electronic security systems); fire protection systems (e.g. fire sprinklers, fire alarm and detection systems, fire alarms and fire resistant building assemblies); and lighting systems for airfield, operational and training, commercial, institutional, industrial, research development, quality of life facilities, etc.

Additionally, preparation of Request for Proposals (RFP) packages for Design-Build (DB) projects, preparation of civil design support documents, and miscellaneous studies may be required. Primary A-E services will include preparation of Design-Bid-Build (DBB) construction contract packages (i.e., full plans and specifications); civil engineering surveys/studies including, but not limited to, topographic surveys, utility studies, geotechnical studies, and drainage studies. Additionally, preparation of Request for Proposals (RFP) for Design-Build (DB) projects and studies or reports related to the designs of new facilities may be required. Support A-E services may be required to perform technical reviews of government-prepared designs and design build packages, preparation of planning and programming support documents, cost estimates, and post construction award services (PCAS). Types of projects may include, but are not limited to, new construction, repair, and renovation of the following: wet utility systems (water, wastewater, and storm water); airfield pavement including runways, taxiways and aprons; roads and paving; bridges; entry gates/control points; outdoor recreational fields; outdoor shooting and combat training ranges; erosion control, storm water management, and low impact development design; and other related work.</p>

<p align="center">N62473-17-R-4618          INTERIOR DESIGN SERVICES,          SMALL BUSINESS SET-ASIDE</p>	
<p>LOCATION: Projects under this contract will occur at various military installations located in the NAVFAC Southwest (SW) Area of Responsibility (AOR) (California, Arizona, Nevada, Colorado, New Mexico, and Utah) and the NAVFAC Pacific AOR (Hawaii, Japan, Guam), but may be also available to the NAVFAC (AOR) as approved by the NAVFAC SW Chief of Contracting Office (CCO).</p>	
<p>SCOPE OF WORK: INTERIOR DESIGN related services. The work will primarily include preparing Comprehensive Interior Design (CID) for various types of facilities. CID includes Structural Interior Design (SID) and Furniture, Fixtures and Equipment (FF and E) Interior Design. SID includes selection and coordination of interior finish materials that are integral to or attached to the building structure. FF and E interior design includes design, selection, specification, color coordination, and procurement documentation of the required items. SID packages will typically include furniture floor plans, finish schedules, and any supporting interior elevations, details, or plans necessary to communicate the building finish design and build out. FF and E packages will typically include placement plans, ordering and finish information on all freestanding furnishings and accessories, cost estimates, and best value determinations.</p> <p>Additional services may include the following: preparation of the interior design portion of a design-build Request for Proposal (RFP) package, including developing the FF and E requirements and budget for the project; verification of equipment and finishes during building construction; consultation during FF and E procurement, delivery, and installation; supervision of furniture assembly and placement; developing standards for FF and E for a program or group of projects; and other related consultation.</p> <p>The types of buildings/facilities may include, but are not limited to, administration buildings, academic facilities, maintenance facilities, hangars, industrial/warehouse, bachelor enlisted/officer quarters, recreational facilities, dining facilities, medical facilities, laboratories, and consolidated clubs.</p>
